

Denti-Cal Bulletin

VOLUME 21, NUMBER 5 P.O. BOX 15609 SACRAMENTO, CALIFORNIA 95852-0609 FEBRUARY 2005

HEALTH INSURANCE PORTABILITY AND ACCOUNTABILITY ACT (HIPAA) TRANSACTIONS AND CODE SETS UPDATES

What Should Providers Be Doing?

- ✓ *Preparing to submit claims using CDT-4 codes effective October 1, 2005.*
- ✓ *Providers must continue to follow existing billing instructions until otherwise notified through future bulletin updates.*
- ✓ *CDT codes are not currently accepted by Denti-Cal and are considered invalid.*
- ✓ *Any claim service line (CSL) submitted with an invalid procedure code or a blank procedure code field will be denied, whether submitted electronically or as paper documents.*
- ✓ *Providers should review all monthly bulletins for updates on future CDT-4 implementation details.*

Standard Codes for Transactions

Denti-Cal is moving forward with the changes to comply with the Health Insurance Portability and Accountability Act (HIPAA). To accomplish this, Denti-Cal is adopting Current Dental Terminology Version 4 (CDT-4) standard procedure codes for both paper and electronic transactions. Denti-Cal is targeting October 1, 2005 for implementation of CDT-4 codes, with additional specifics provided in future bulletins as implementation draws near. ***A CDT-5 version (with minimal changes) will be implemented soon after CDT-4. It is important to note that the October 1, 2005 implementation date is for CDT-4 only.*** With the change to CDT-4 codes there will also be changes to the current Denti-Cal manual of criteria. The criteria and program changes will be addressed in future provider training seminars, workshops, bulletins, Denti-Cal Provider Manual updates, and Web sites. Ongoing detailed instructions and implementation schedules related to the HIPAA transactions and code sets acceptance will be noted in forthcoming bulletins. *It is very important to review and retain all monthly bulletins to keep informed of future implementation details.*

Electronic Data Interchange (EDI) Claim Format, Companion Guide and Certification Process

Denti-Cal is now able to accept the newer Version 4010A1 format for claims (ASC X12N 837), claim status (ASC X12N 276), and claim status response transaction sets (ASC X12N 277) from certified trading partners. EDI trading partners must be certified for the 4010A1 format before any claim data will be accepted. ***Denti-Cal will discontinue the current claim data format (ASC X12 Version 3030), effective June 1, 2005.*** EDI clearinghouses have been notified of this date.

This is in reference to data format only, not data content. Current Dental Terminology (CDT) codes cannot be accepted by Denti-Cal and will continue to be invalid until such time as Denti-Cal implements this coding standard.

The Denti-Cal EDI Companion Guide has been finalized and provided to clearinghouses and providers who submit electronic claims directly to Denti-Cal. Several have initiated or are nearing completion of testing, at which time they are being advised of the X12 Version 4010A1 certification process that has been developed. Clearinghouses and providers submitting directly are required to undergo certification for the 4010A1 format. ***After the target date of June 1, 2005, electronic documents will not be accepted from those who have not been certified for the 4010A1 format.*** Providers who submit claims electronically through clearinghouses will not be required to individually undergo certification. They should, however, check with the clearinghouse to verify that certification has been obtained from Denti-Cal.

If you would like a copy of the Denti-Cal EDI Companion Guide, contact Provider Services toll free at (800) 423-0507 or call (916) 853-7373 and ask for EDI Support. Requests may also be sent by email to denti-caledi@delta.org.
